and the Environment.

**Treats 75' of Shoreline up to 6 Months**

Approximately 16 Scoops  
Net Contents: 8 lbs • 3.6 kg

# How does **MuckAway™** eliminate mucky bottoms?

Pond muck is caused by rotting vegetation, leaves, twigs and fish waste that accumulate on the bottom of your pond. MuckAway™ is a special blend of highly concentrated beneficial bacteria designed to work on contact. MuckAway™ rapidly dissolves organic waste into an odorless gas which escapes unnoticed out of the water column. MuckAway™ is so effective that when used regularly can remove up to 5 inches of muck per year!

## Ma **MuckAway™** Natural Beneficial Bacteria

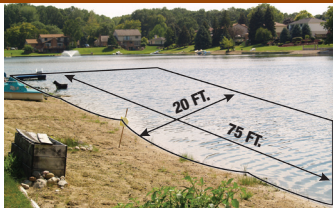

### **DOSAGE RATE:**

Use 1 scoop per 1,000 sq. ft. of treatment area.

Example: To treat a beach area that consists of 75' of shoreline and extends 20' out into the pond or lake:  $75 \times 20 = 1,500$  sq. ft. = 1.5 scoops

**HOW TO APPLY:** Broadcast MuckAway™ evenly over the treatment area.

**WHEN TO APPLY:** Apply every 2–4 weeks when water temperatures are above 50° F. Treatment should continue until desired results are achieved.

### **WATER USE RESTRICTIONS:**

MuckAway™ may be applied to lakes and ponds used for irrigation and aquaculture. Water treated with MuckAway™ may be used for recreation, fishing and other activities immediately after treatment. Safe for recreational ponds, horses, livestock, birds, pets, fish, wildlife and the environment. *Do not apply to water that will be used for human consumption.*
