

# Super Concentrated Pond & Lake Blue Dye Packets

4 Packets Treat  
**1 Acre Pond**  
6 - 8' Deep

- Provides natural blue appearance to pond water
- Super-concentrated formula
- Safe for fish, birds, plants and other wildlife
- Easy to apply
- Mess-Free water soluble packets

This concentrated blue pond and lake colorant is designed for use in large ponds and lakes. It has been packaged in pre-measured water-soluble packets for easy application. This product will not stain birds, fish, plants, pets, or wildlife when applied at the recommended rate. It provides a more aesthetically pleasing appearance to the pond water by offering a "natural blue color"

## Dosage:

No Measuring or mixing is required. Simply toss the water soluble packets directly into the pond. Do not touch or pick up packets once wet. Apply 4 packets per surface acre of pond water, every 4 weeks or as needed. Apply 1 packet for quarter acre. To deepen color, double the application.

4 (Four ounce Water Soluble Packets)
